FEDERAL COMMUNICATIONS COMMISSION
Washington, D.C. 20554

In the Matter of)	
)	
Connect America Fund)	WC Docket No. 10-90
)	

COMMENTS OF BEK COMMUNICATIONS COOPERATIVE

BEK Communications Cooperative (“BEK”) respectfully submits the following comments to the Federal Communications Commission (“FCC”) in response to the Wireline Competition Bureau’s (Bureau) publication of the list of all census blocks that price cap carriers have requested funding to serve as part of the second round of Connect America Phase I (“Public Notice”).¹

The census blocks listed within Appendix A attached hereto, which appear on the Bureau’s list of all census blocks that price cap carriers have requested funding to serve as part of the second round of Connect America Phase I² (“List”), are inaccurately reported on the List as unserved for the reasons BEK provides herein. The blocks listed on Appendix A are served by BEK through their Fiber-To-The-Home (“FTTH”) broadband service. BEK hereby requests that these census blocks be removed from the Bureau’s unserved and underserved List, as BEK

¹ *Wireline Competition Bureau Publishes Census Blocks, And Commences Challenge Process, For Second Round Of Connect America Phase I*, WC Docket No. 10-90, Public Notice, DA 13-1832 (rel. August 28, 2013).

² http://hraunfoss.fcc.gov/edocs_public/attachmatch/DOC-323008A1.xlsx (rel. August 28, 2013).

has FTTH broadband service in the Rural Bismarck, North Dakota area and currently serves these areas with speeds far greater than 4 Mbps downstream and 1 Mbps upstream.

BEK Communications Cooperative, founded in 1952, is a multi-faceted communications services company headquartered in Steele, North Dakota. The company provides facilities-based voice, Internet, Ethernet and digital IPTV services, voice and surveillance cloud based services, live sports broadcasting, hospital and business communications solution, to more than 7,000 customers in south-central North Dakota. The company emphasizes an intimate local service experience and a broad portfolio of high quality communications services at a reasonable price. We are recognized as members serving members, where no one else will. BEK also serves the rural area located directly around Bismarck, ND. Within the rural Bismarck area, customers are treated like cooperative members. Although they are not eligible to earn capital credits like members of the cooperative, they receive the same great services at affordable prices. Over the years, BEK has invested heavily in the electronics and infrastructure necessary to deliver state of-the-art services to their customers. The complex design of the network gives BEK the capability of providing many basic and advanced services including: local and long distance telephone service, high speed Internet, digital TV, advanced intelligent network features, ISDN, dedicated data circuits, Ethernet transport for cell towers, surveillance and much more. BEK has completed a multi-year upgrade to FTTH in the remote areas, bringing the functionality of the digital services out to the last mile of transmission line. This allows all BEK subscribers access to the most advanced technologies even in the most remote rural areas. This investment yields a fiber network consisting of over 6,000 miles of fiber optic cable.

Therefore, the attached Appendix A provides the most current broadband service data regarding the blocks on Appendix A. Also included with this filing as documented evidence for

BEK's service in the respective census blocks, is an Affidavit from Derrick Bulawa, Chief Executive Officer of BEK, as well as a screen print from BEK's website outlining the available speeds up to 200 Mbps / 2 Mbps, attached hereto as Appendix B. Also attached as Appendix C are redacted customer bills showing BEK is capable of providing broadband services far greater than 4 Mbps downstream and 1 Mbps upstream to addresses within the census blocks in question.

BEK's FTTH broadband platform within the Rural Bismarck, North Dakota Exchange is capable of delivering bandwidth up to 200 Mbps / 2 Mbps, far greater than the minimum speeds of 4 Mbps downstream and 1 Mbps upstream, to each anchor institution, business and residential location constructed within the census blocks listed on Appendix A.

BEK appreciates the opportunity to file these comments relating to areas shown as eligible census blocks that price cap carriers have requested funding to serve as part of the second round of Connect America Phase I. In conclusion, BEK requests the census blocks listed on Appendix A all within the Rural Bismarck, North Dakota Exchange be deemed as served for the reasons stated herein and be removed from the list of areas eligible for Phase I support going forward.

Respectfully submitted,

By: /s/ Derrick Bulawa

Derrick Bulawa

APPENDIX A

List of Blocks that Do Not Belong on the Bureau's List of census blocks that price cap carriers have requested funding to serve as part of the second round of Connect America Phase I

Burleigh County, North Dakota:

380150110021000

380150113003003

380150113003044

380150113003068

380150113003071

380150113003159

380150113003175

AFFIDAVIT

I, Derrick Bulawa, as Chief Executive Officer of and on behalf of BEK Communications Cooperative, have personal knowledge of the following:

- (i) BEK Communications Cooperative has completed a fiber build out within the above listed blocks and is capable of providing speeds far greater than 4 Mbps downstream and 1 Mbps upstream; and
- (ii) The above listed blocks are served with broadband service with available speeds up to 200 Mbps / 2 Mbps as a result of BEK Communications Cooperative's fiber buildout.

I verify under penalty of perjury that the foregoing is true and correct. Executed on September 25, 2013.

/s/ Derrick Bulawa

Derrick Bulawa, Chief Executive Officer, BEK Communications Cooperative
